Upgrading to Version 5.6.0   (1)

Upgrading Stand-Alone Installations

- The customer's **Capture Pro Software Serial Number** must be entitled to the 5.6 release
  - **The Entitlement Date (or Software Assurance Expiration Date) must be August 1, 2018 or later**

- To upgrade, download the installer **(CapProSW_5_6_0.exe)** file from **www.kodakalaris.com/go/captureprodownload** and run it.
  - **The installer will automatically upgrade an existing Capture Pro install to Version 5.6.0**
  - **An Internet connection is required during the upgrade as the Alaris licensing system will generate a new 5.6 license**

Alaris
a Kodak Alaris business

Upgrading to Version 5.6.0   (2)

Upgrading Network Edition Installations

- Both the NE Server and the NE Client workstations must be upgraded to Version 5.6 at the same time.
  - **You cannot run a Version 5.5 client workstation with a Version 5.6 NE Server**
  - **You cannot run a Version 5.6 client workstation with a Version 5.5 NE Server**

- To upgrade, download the installer files from www.kodakalaris.com/go/capturepronedownload and run them
  - **IIS on the Network Edition Server must be STOPPED prior to the upgrade and RESTARTED after the upgrade**

Alaris
a Kodak Alaris business

New Subscription Offering – Overview (continued)

The Subscription lasts One (1) Year
- Subscription will start after the fulfillment process has been completed – details on the following pages
- Capture Pro will stop working once the subscription has expired
- Renewing a subscription for another year will be offered by the Alaris Service and Support team

The Subscription includes One (1) Year of Software Assurance
- Ability to call Service and Support for assistance
- Ability to upgrade to new releases of Capture Pro Software that may come out during the subscription period

Alaris
a Kodak Alaris business

New Subscription Offering – Overview (continued)

Limitations

- A subscription license works the same as a regular Capture Pro license with one exception:

  When running Capture Pro configured for Auto Import, the ability to run Auto Import as a Service is not supported

New Subscription Offering – Fulfillment Process

**Customer will receive an e-mail with instructions for providing the Hardware ID of the PC that will be running Capture Pro Software**

Thank you for your purchase of Alaris Capture Pro Subscription software.

Please find the instructions below for initiating the downloading, installing, and activating your Capture Pro subscription:

1) Download the **License Manager** from the Alaris web site at www.alarisworld.com/go/captureprodownload in the Workstation/Client section.

2) Run the self-installer (CapProLicenseManager.exe) to install the Alaris License Manager software on the PC where Capture Pro Software will be running. If you already have an earlier version of the License Manager installed on your PC, then the installer will upgrade your License Manager to this latest version.

3) Run the License Manager software and click on the button towards the bottom of the screen called **"Show Hardware ID"**.

4) Cut and Paste the **Hardware ID** into an e-mail and send it to e-mail address: DIMEDIA@Kodakalaris.com.

5) Kodak Alaris will generate a license for the Hardware ID that you provided. We will send you an e-mail with further instructions when your license is ready.

Thank you.

New Subscription Offering – Fulfillment Process (cont.)

After receiving the customer's Hardware ID, Kodak Alaris will generate their subscription license

The customer will receive a follow-up e-mail with instructions - their subscription will start on that date

Dear Customer,

Your Capture Pro subscription license is ready. Please follow the instructions below to install Capture Pro Version 5.6:

1) Download the Capture Pro Version 5.6 installer from the www.alarisworld.com/go/captureprodownload Alaris web site.

2) Run the self-installer (CapProSW_5_6_0.exe) to install the Capture Pro software.

2a) During the installation you will be brought to a screen asking for a Software Serial Number. On that screen, check the box entitled **"I would like a Trial or Subscription license"**.
2b) On the next screen, you will be asked to either enter in a Registration ID or to click on the "Next" button to register. If you don't have a Registration ID, click on the **"Next"** button and complete the registration screens.
2c) At the end of Registration you will be asked to click on a **"Continue"** button to return to the Capture Pro installation.

3) Complete the installation. As long as your PC is connected to the Internet, your Capture Pro Subscription License will be retrieved and activated.

Please see below your Serial #. This serial number is NOT to be entered during software installation. This is for reference if you are calling our help desk for support

Serial #: CPS110XXX

a Kodak Alaris business

New Subscription Offering – Fulfillment Process (cont.)

When calling Service and Support for assistance, the customer must provide the Serial # contained in their fulfillment e-mail

3) Complete the installation. As long as your PC is connected to the Internet, your Capture Pro Subscription License will be retrieved and activated.

Please see below your Serial #. This serial number is NOT to be entered during software installation. This is for reference if you are calling our help desk for support

Serial #: CPS110XXX

Alaris
a Kodak Alaris business

New Subscription Offering – Installation

During the installation (i.e., after downloading and running the installer file, CapProSW_5_6_0.exe) the user will be asked to enter their Software Serial Number
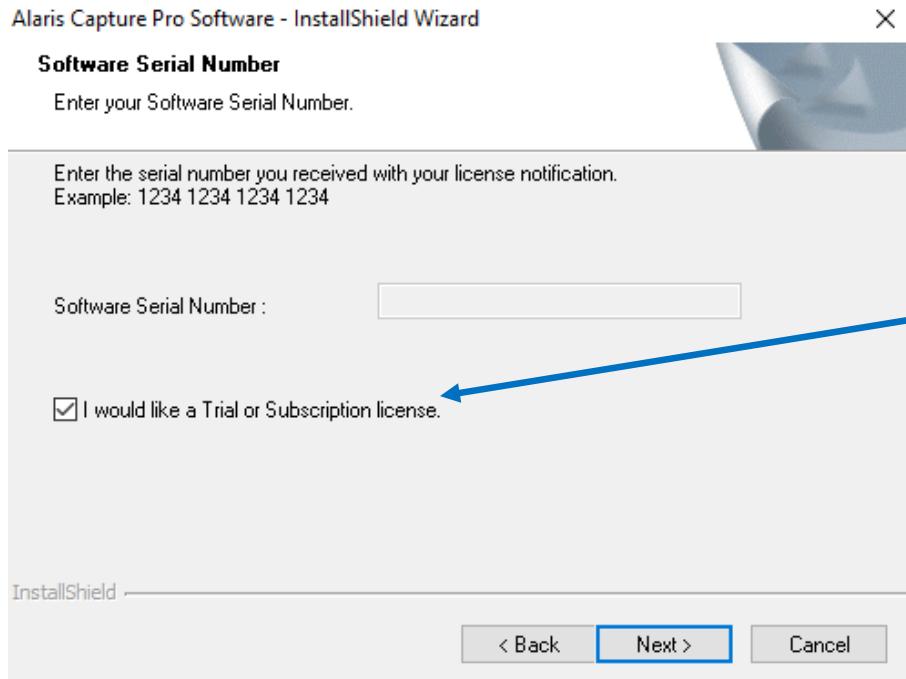

For Subscription installations, the user must instead select "I would like a Trial or Subscription license"

Alaris
a Kodak Alaris business

New Subscription Offering – Installation (continued)

The user will then be required to Register after which they will receive their Registration ID
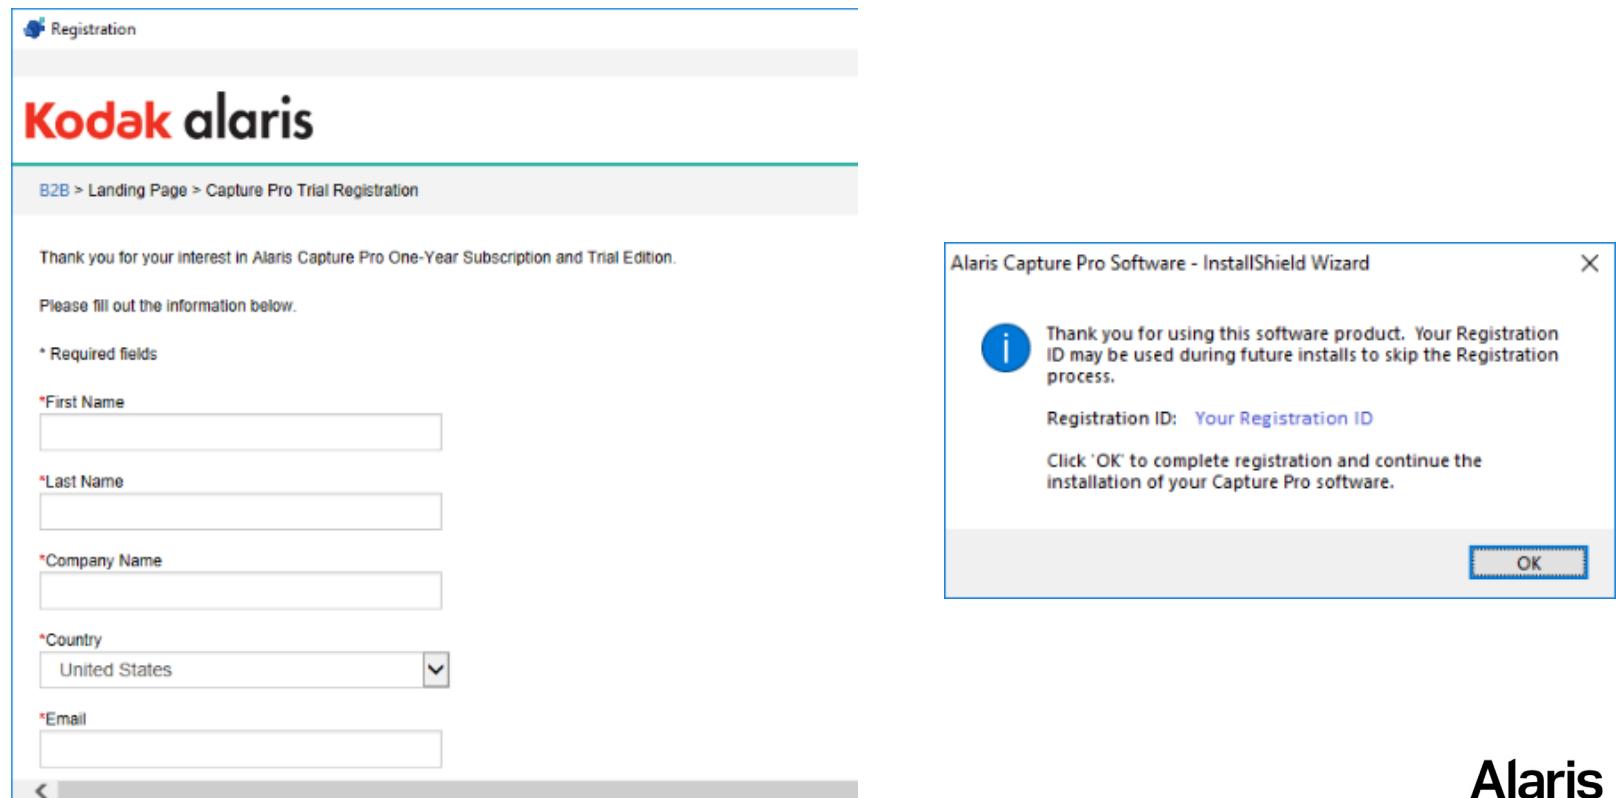

New Subscription Offering – Launching the Software

Upon launching Capture Pro Software, the customer will be informed how many days left they have in their subscription

Enhancements

Updated DocuWare System Output Destination (SOD)

- Works with **DocuWare Version 6.6** or higher

- Produces multi-page TIFF, PDF, or Searchable PDF image output and XML index files in the **DocuWare DWCONTROL format**

- For use with the **DocuWare IMPORT** program

- For details on how to configure a Capture Pro Job Setup to work with DocuWare IMPORT, please contact your Alaris pre-sales or support representative

Notes:
- When upgrading to Version 5.6.0 from a previous release, the legacy DocuWare (ALOS) system output will be replaced by the new SOD
- In order to continue to use the legacy DocuWare (ALOS) system output, it must be saved prior to upgrading to Version 5.6.0
- For details, contact your Alaris support representative

Problems Fixed in 5.6.0

Scanning and Main Screen GUI

- **When launching Capture Pro, the last used Job and Batch are no longer highlighted in Batch Manager**
  - **Problem was new to Version 5.5.0 where the last used Job and Batch were not being remembered between launches of Capture Pro**

- **Kodak i6xx (e.g., i620) scanners not working with Capture Pro Version 5.5.1**
  - **Problem was specific to Version 5.5.1 where scanning was not possible**

- **Capture Pro hangs after scanning a large number of batches in one session**
  - **Problem was new to Version 5.5.x and would occur after about 350 batches**

- **When Batch Manager is sorted by Date/Time the display order can be incorrect if multiple batches are created very close in time**

Alaris
a Kodak Alaris business

Problems Fixed in 5.6.0   (continued)

Scanning and Main Screen GUI (continued)

- **Electronic Color Dropout settings are not "sticking" with selected scanners**
    - Problem was specific to <u>Version 5.5.x</u> of Capture Pro
    - Problem was more prevalent when GUI language was something <u>other then English</u>
    - Enabling Electronic Color Dropout in the scanner settings profile (i.e., TWAIN GUI) would initially work but if user went into the scanner TWAIN GUI, the setting would be <u>disabled</u>
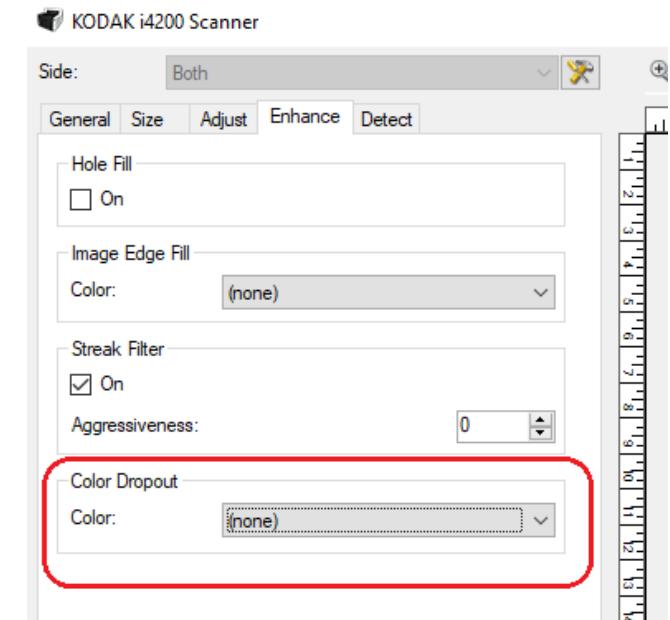

Alaris
a Kodak Alaris business

Problems Fixed in 5.6.0   (continued)

Indexing

- **Mark Detection results are not accurate** due to image being auto-rotated during OMR processing
  - Problem started in Version 5.4.1
  - OMR processing will now correctly use the image orientation <u>as scanned</u> (which could be configured to not auto-orient based on the Job requirements)

Auto Import

- **When using the Auto Import Service,** stopping the service does not shut down the Capture Pro processes
  - In Version 5.6, stopping the Auto Import Service will correctly shut down **Capture.exe, CaptureProcess.exe,** and **CaptureProcessGuard.exe**

Output

- **Duplicate entries in output Image Index file** when scanning dual stream bitonal and grayscale
  - Problem did not occur when scanning dual stream bitonal and color
