

## Kodak S3140 Max Scanner

The Kodak S3140 Max Scanner has won a Buyers Lab (BLI) 2023 Pick Award from Keypoint Intelligence thanks to its...

- Time-saving automation capabilities
- Seamless integration with core business applications
- Simple user experience
- Powerful built-in image processing, barcode recognition, and OCR capabilities
- Fast scan speeds, superior media handling, and flawless reliability

“The Kodak S3140 Max Scanner is the ideal choice for paper-intensive shared scanning environments that want to get the most out of their digital transformation investment,” said Lee Davis, Senior Analyst in Keypoint Intelligence’s Office Group. “The device is network enabled, supports driverless scanning through a REST API, and comes with its own built-in image processing chip, so it can be deployed as a standalone device—no attached PC is required.”

Bundled with Kodak Alaris Smart Touch, users can create fully searchable, editable file types, and route them to email, cloud services, document management systems, workflow automation platforms, and so on. The device also works with Kodak Info Input, which can automatically classify documents and extract data based on its contents, so businesses can extend business process automation to the point of capture. In either solution, shortcuts can be created to streamline and standardize frequently recurring jobs, allowing users to kick off fully automated workflows with the touch of a button.

“The Kodak S3140 Max Scanner was a standout performer during Keypoint Intelligence’s lab testing,” said Len Wolak, Senior Lab Technician at Keypoint Intelligence. “The device ran perfectly during reliability testing and was vastly superior to the competition during speed

and OCR accuracy testing, all of which means the Kodak S3140 Max Scanner can certainly keep up with user demands. It's no wonder why this device has earned a BLI Pick Award."

## About Keypoint Intelligence

---

For 60 years, clients in the digital imaging industry have relied on [Keypoint Intelligence](#) for independent hands-on testing, lab data, and extensive market research to drive their product and sales success. Keypoint Intelligence has been recognized as the industry's most trusted resource for unbiased information, analysis, and awards due to decades of analyst experience. Customers have harnessed this mission-critical knowledge for strategic decision-making, daily sales enablement, and operational excellence to improve business goals and increase bottom lines. With a central focus on clients, Keypoint Intelligence continues to evolve as the industry changes by expanding offerings and updating methods, while intimately understanding and serving manufacturers', channels', and their customers' transformation in the digital printing and imaging sector.

## About BLI Office Hardware Pick Awards

---

Buyers Lab Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes its lab test earns the Highly Recommended or Recommended Seal and a Certificate of Reliability, with the best performers qualifying as Pick contenders.
